

## Suprabha

We at Suprabha have pioneered the concept of protecting metals through the use of eco-friendly Vapour Corrosion Inhibitors (VCI) in India.

We started our operations in 1973 under the name of Protection Engineering Corporation in Pune. We are now a group of three companies. Suprabha Protective Products Pvt. Ltd., Suprabha Dhatu Raksha Products Pvt. Ltd. and Jai Suprabha Protective Products Pvt. Ltd. having ISO :TS 16949 accreditation, the first VCI manufacturer to have this accreditation in the world. We have always been leaders in the manufacture of VCI products in India with a group turnover of over INR 500

million. We have successfully established ourselves as a single window source for corrosion related solutions.

Our pioneering credits, our commitment to research and our consistency in quality, service and delivery has earned us the respect and trust of many a leading name in Indian Industry and a unique reputation .

The moving force behind us is our Board of Directors, whose combined experience is over a century in various aspects of Research, Manufacturing, Product development, Industrial design, Marketing and Sales.

## Corrosion Solutions Provider

We undertake a complete turnkey service as a Corrosion Solutions Provider right from processing the raw material to the stage of final dispatch.

Our service comprises of three stages

- **Corrosion Audit**
  - Diagnosing and understanding present corrosion related problems
  - Suggesting complete rust prevention solution and rationalisation of rust preventive products
  - Helping to implement the same and
  - Reviewing the implementation periodically
- **Corrosion treatment**
- **Storage and despatch**

## Research and Technology

Research and Development is an integral part of the Suprabha Group. We have our own panel of scientists and technologists, and a fully equipped Research and Development laboratory.

One of our greatest achievements in industrial design is our plant and equipment, which has been fully developed in-house. Built with an indigenously fabricated system, the plant has unequalled operational efficiency.

## Products and Services

We are a research driven organisation. We believe in providing appropriate and cost-effective solutions rather than simply marketing products. Our Rust Preventive Systems and products have been developed through extensive research. All our products are eco-friendly and pollution free. They conform to all the relevant Indian and International Standards.

The chemicals used are registered under REACH Regulations.

## World Acclaimed Award Winning Packaging Solutions

- Seaworthy Packaging Systems
- Transparent Seaworthy Packaging System
- Seaworthy Packaging System for Open Deck Transportation
- Packaging on turn key basis for exports
- Preservation system on turnkey basis (Supply, Apply and Preserve)
- P2P (Point to Point Service)

## VCI Products

Products made by Suprabha are broadly classified into different categories :

- Rustopaper
  - Kraft
  - Poly Coated
  - HDPE Fabric Laminated Products
- Rustopowder, Rustopowder - Tablets, Desiccants / Dehumidifier
- Rust Preventive Oils & Rustojel
- Rustofilm in Tubes, Sheets and Covers
- Bio-degradable Synthetic Paper in Rolls, Sheets & Covers
- Rustopliq - Water Based Rust Preventive Liquids
- Rust Converter & Metal Cleaners
- VCI Stretch Film
- VCI Bubble Sheets
- VCI Shrink Film

## Other Products

- HDPE Fabric upto 3000 mm, without joint from 110 gsm onwards
- Normal LDPE Film in Tubes, Sheets, Rolls.
- Stretch film: Machine Use and Hand Use
- Shrink Film
- Fire Retardant Poly Products
- Anti Static Film
- Bubble Sheet
